

Grace Christian Middle School
7th & 8th Grade
Effective 2018-2019 school year

CHROMEBOOK

Every 7th & 8th Grade must have their own Chromebook to be used daily in the classroom and to complete work outside of the classroom. Grace Christian School will not be providing Chromebooks for students to lease.

Student families are responsible to ...

- purchase a Chromebook for their time as a Middle School student at Grace Christian School. The student will have, and be very familiar to start High School with their own Chromebook.
- labeled Chromebook must be dropped off in the school office one week prior to the start of school to install the Management System and Go Guardian prior to the first day of school. Please note anything on the Chromebook will be cleared prior to the install. Therefore, we suggest that you leave newly purchase Chromebook in the box or download things that you don't want to lose from a Chromebook that is used.
- make sure that the Chromebook is charged when they arrive a school.
- handle all damages or operational concerns that may occur. We encourage purchasing the warranty plan
- carry case, if you choose.

What does Grace Christian School provide?

- We install a Management System software on each student's Chromebook that allows the teacher to be aware of all the sites and activity of each student at school and at home. This system will be removed from the Chromebook when the student leaves Grace.
- We also have Go Guardian which is a system that allows the classroom teacher to view what site each student is on throughout the school day.

Thank you in advance for your cooperation.
Questions or concerns please contact the classroom teacher or the office.
