**Welcome** to my studio!! I am delighted you have decided music, and that you have elected to study with our team. Working together, it is my hope that we can help you to grow in your musical skills and appreciation and have a lot of fun in the process.

**Lessons:** Your lesson time has been reserved specifically for you. If you cannot make your scheduled lesson time, please notify me by 5:00 PM on the day prior. Lessons missed for reasons other than illness or emergencies without advance notice, or lessons missed without notification will not be made up.

**Practice:** Your growth and progress on your instrument will correspond directly to how much time you spend with your instrument. Your goal should be to practice for an uninterrupted \_\_\_\_\_ minutes five or six days/week. The greater your ability to focus on your practicing time, the more profitable it will be for you. Keep your notes from your lessons with you as you practice and refer to them often.
